**LA-Z-BOY REPORTS RECORD FISCAL 2023 FIRST-QUARTER RESULTS**

MONROE, Mich., August 23, 2022--La-Z-Boy Incorporated (NYSE: LZB), a global leader in residential furniture, today reported record-setting first-quarter results for the quarter ended July 30, 2022.

**Fiscal 2023 first-quarter highlights versus prior year:**

- Consolidated sales increased 15% to \$604 million, a first-quarter record
  - Operating profit and operating margin were also all-time first-quarter records
- Retail segment sales increased 30% to \$236 million, an all-time quarterly record
  - Operating profit and operating margin were also all-time quarterly records
- Joybird written sales increased 12%

Melinda D. Whittington, President and Chief Executive Officer of La-Z-Boy, said, "We delivered excellent results for the quarter, amidst challenging trends for the global economy and the furniture industry. We are focused on navigating the near-term volatile environment with agility while strengthening our business for the long term with our Century Vision strategy. This quarter, we further built our iconic La-Z-Boy brand with the acquisition of five La-Z-Boy Furniture Galleries® stores in the Denver market, and our Joybird brand with the opening of two new Joybird retail stores."

Whittington added, "In the near term, we remain focused on working down our backlog to drive delivered sales and enhance service to customers with shorter, pre-pandemic lead times. Our supply chain team continues to improve results and reduce start-up friction costs at our new plants in Mexico to strengthen wholesale gross margins over time. At the same time, we have increased our marketing spend to pre-pandemic levels to increase traffic and conversion and support the equity of our brands. With a strong balance sheet, we have the means to make prudent investments in our business and we expect to deliver enhanced long-term returns to all stakeholders."

## FY23 Q1 Results vs. FY22 Q1:

### Consolidated Results:

- Consolidated sales in the first quarter of fiscal 2023 increased 15% to \$604 million, reflecting pricing and surcharge actions and the positive effects of product and channel mix
- Consolidated GAAP operating margin was 8.7% versus 6.5%
- Consolidated non-GAAP<sup>(1)</sup> operating margin was 8.9% versus 6.6%
  - Improved operating margin was driven primarily by a change to the company's consolidated business mix, with Retail becoming a larger portion, and fixed-cost leverage on higher sales
- GAAP diluted EPS increased to \$0.89 from \$0.54; non-GAAP<sup>(1)</sup> diluted EPS increased 65% to \$0.91 from \$0.55

### Retail Segment:

- Sales:
  - Delivered sales increased 30% to an all-time quarterly record of \$236 million
  - Delivered same-store sales increased 25%

- Written same-store sales for the company-owned La-Z-Boy Furniture Galleries® stores (the company's Retail segment) decreased 15%, reflecting a return to normal seasonality associated with the summer period and consumer sentiment impacts from macroeconomic and geopolitical concerns
- Written same-store sales were 12% higher than pre-pandemic levels
- Operating Performance:
  - Non-GAAP<sup>(1)</sup> operating margin and operating profit increased to all-time records of 16.2%, and \$38 million, respectively, versus 11.2%, and \$20 million in last year's first quarter, primarily driven by fixed-cost leverage on higher delivered sales volume

#### **Wholesale Segment:**

- Sales:
  - Increased 12% to a first-quarter record of \$442 million driven by realized pricing and surcharge actions coupled with favorable channel and product mix, partially offset by lower volume, primarily the result of some external dealers temporarily delaying receipt of finished goods due to warehouse constraints
- Operating Margin:
  - Non-GAAP<sup>(1)</sup> operating margin increased to 6.1% versus 4.7%, primarily reflecting pricing and surcharge actions as well as favorable channel and product mix, partially offset by increased raw material and plant costs

#### **Corporate & Other:**

- Joybird delivered sales increased 10% to \$43 million
- Joybird written sales increased 12% versus the year-ago first quarter, supported by improved web conversion, average order value and average sales price
- Intercompany eliminations increased in the first quarter 2023 versus the year-ago period due to higher sales from the company's Wholesale segment to its Retail segment
- Joybird posted a small loss for the period, reflecting continued investments in marketing while experiencing increases in freight costs as well as friction costs associated with the opening of a second manufacturing facility in Tijuana; the company expects Joybird to be profitable for the full fiscal year

#### **Balance Sheet and Cash Flow as of FY23 Q1**

- Ended the quarter with \$241 million in cash<sup>(2)</sup> and \$25 million in investments to enhance returns on cash, and no external debt
- Generated \$33 million in cash from operating activities versus \$6 million in the prior-year quarter
- Spent \$21 million on capital expenditures for the quarter, primarily related to Retail store upgrades, new Retail stores, and plant upgrades at our manufacturing and distribution facilities
- Returned \$12 million to shareholders, including \$7 million in dividends and \$5 million in share repurchases, or approximately 0.2 million shares of stock, leaving approximately 7.3 million shares available for repurchase under its authorized share repurchase program

#### **Dividend**

On August 23, 2022, the Board of Directors declared a quarterly cash dividend of \$0.165 per share on the common stock of the company, payable on September 15, 2022, to shareholders of record on September 7, 2022.

#### **Outlook**

Bob Lucian, Chief Financial Officer of La-Z-Boy Incorporated, said, "While we maintain our long-term commitment to steady sales growth and margin progress, we continue to anticipate results may vary significantly during fiscal 2023 as a result of current industry dynamics as well as macroeconomic and geopolitical uncertainty and its effect on consumer sentiment. Taking all known factors into consideration,

we expect delivered sales for the fiscal 2023 second quarter to be up 2% to 5% versus the second quarter of fiscal 2022, in a range of about \$590 million to \$605 million, and consolidated non-GAAP operating margin to be in a range of about 8.0% to 8.5%."

**<sup>(1)</sup>Non-GAAP amounts for the first quarter of fiscal 2023 exclude:**

- a charge of \$0.9 million pre-tax, or \$0.02 per diluted share, related to our business realignment plan, including costs associated with the closure of our Newton, Mississippi manufacturing facility.
- purchase accounting charges related to acquisitions completed in prior periods totaling \$0.3 million pre-tax, or \$0.00 per diluted share, with \$0.2 million included in operating income and \$0.1 million included in interest expense.

**Non-GAAP amounts for the first quarter of fiscal 2022 exclude:**

- purchase accounting charges related to acquisitions completed in prior periods totaling \$0.4 million pre-tax, or \$0.01 per diluted share, with \$0.3 million included in operating income and \$0.1 million included in interest expense.

Please refer to the accompanying "Reconciliation of GAAP to Non-GAAP Financial Measures" for detailed information on calculating the Non-GAAP measures used in this press release and a reconciliation to the most directly comparable GAAP measure.

**Cautionary Note Regarding Forward-Looking Statements**

This news release contains "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. Generally, forward-looking statements include information concerning expectations, projections or trends relating to our results of operations, financial results, financial condition, strategic initiatives and plans, expenses, dividends, share repurchases, liquidity, use of cash and cash requirements, borrowing capacity, investments, future economic performance, business and industry and the effect of the novel coronavirus ("COVID-19") pandemic on our business operations and financial results.

The forward-looking statements in this press release are based on certain assumptions and currently available information and are subject to various risks and uncertainties, many of which are unforeseeable and beyond our control, such as the continuing and developing impact of, and uncertainty caused by, the COVID-19 pandemic. Additional risks and uncertainties that we do not presently know about or that we currently consider to be immaterial may also affect our business operations and financial results. Our actual future results and trends may differ materially depending on a variety of factors, including, but not limited to, the risks and uncertainties discussed in our fiscal 2022 Annual Report on Form 10-K and other factors identified in our reports filed with the Securities and Exchange Commission (the "SEC"), available on the SEC's website at [www.sec.gov](http://www.sec.gov). Given these risks and uncertainties, you should not rely on forward-looking statements as a prediction of actual results. We are including this cautionary note to make

applicable and take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 for forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or for any other reason.

### **Background Information**

La-Z-Boy Incorporated is one of the world's leading residential furniture producers, marketing furniture for every room of the home. The Wholesale segment includes England, La-Z-Boy, American Drew<sup>®</sup>, Hammary<sup>®</sup>, Kincaid<sup>®</sup> and the company's international wholesale and manufacturing businesses. The company-owned Retail segment includes 166 of the 348 La-Z-Boy Furniture Galleries<sup>®</sup> stores. Joybird is an e-commerce retailer and manufacturer of upholstered furniture.

The corporation's branded distribution network is dedicated to selling La-Z-Boy Incorporated products and brands, and includes 348 stand-alone La-Z-Boy Furniture Galleries<sup>®</sup> stores and 530 independent Comfort Studio<sup>®</sup> locations, in addition to in-store gallery programs for the company's Kincaid and England operating units. Additional information is available at <http://www.la-z-boy.com/>.

### **Non-GAAP Financial Measures**

In addition to the financial measures prepared in accordance with accounting principles generally accepted in the United States ("GAAP"), this press release also includes Non-GAAP financial measures. Management uses these Non-GAAP financial measures when assessing our ongoing performance. This press release contains references to Non-GAAP operating income, Non-GAAP operating margin, and Non-GAAP net income attributable to La-Z-Boy Incorporated per diluted share (and components thereof, including Non-GAAP income before income taxes, Non-GAAP net income attributable to La-Z-Boy Incorporated), which may exclude, as applicable, business realignment charges and purchase accounting charges. The business realignment charges include severance costs, asset impairment costs, and costs to relocate equipment and inventory related to organizational changes we undertook as a result of our response to COVID, including a reduction in the company's work force, temporary closure of certain manufacturing facilities and subsequent gains resulting from the sale of related assets. The purchase accounting charges may include the amortization of intangible assets, incremental expense upon the sale of inventory acquired at fair value, amortization of employee retention agreements, fair value adjustments of future cash payments recorded as interest expense, and adjustments to the fair value of contingent consideration.

In addition, this press release references the Non-GAAP financial measure of "Non-GAAP operating margin" for a future period. Non-GAAP operating margin may exclude items such as pre-tax purchase accounting charges and pre-tax business realignment charges. These and other not presently determinable items could have a material impact on the determination of operating margin on a GAAP basis and due to the probable variability and limited visibility of excluded items, therefore, we have not provided a reconciliation of Non-GAAP operating margin for future periods in this press release. These Non-GAAP financial measures are not meant to be considered superior to or a substitute for La-Z-Boy Incorporated's results of operations prepared in accordance with GAAP and may not be comparable to similarly titled measures reported by other companies. Reconciliations of such Non-GAAP financial measures to the most directly comparable GAAP financial measures are set forth in the accompanying tables.

Management believes that presenting certain Non-GAAP financial measures will help investors understand the long-term profitability trends of our business and compare our profitability to prior and

future periods and to our peers. Management excludes purchase accounting charges because the amount and timing of such charges are significantly impacted by the timing, size, number and nature of the acquisitions consummated and the success with which we operate the businesses acquired. While the company has a history of acquisition activity, it does not acquire businesses on a predictable cycle, and the impact of purchase accounting charges is unique to each acquisition and can vary significantly from acquisition to acquisition. Similarly, business realignment charges are dependent on the timing, size, number and nature of the operations being moved or closed, and the charges may not be incurred on a predictable cycle. Management believes that exclusion of these items facilitates more consistent comparisons of the company's operating results over time. Where applicable, the accompanying "Reconciliation of GAAP to Non-GAAP Financial Measures" tables present the excluded items net of tax calculated using the effective tax rate from operations for the period in which the adjustment is presented, except for the non-tax deductible goodwill impairment charge and the adjustment to the fair value of contingent consideration which reflects the associated GAAP tax impact in the period presented.
